Your TTR Experts

THE NEED FOR SPEED....OURS VS THEIRS.

IMP conducted a ribbon benchmarking comparison for [Z107plus](#) Premium Resin Enhanced Wax versus one of the industry leading resin enhanced wax formulations. Testing was conducted using the SATO S84 ex print engine, one of the industry's top printers for best-in-class print speed and throughput, capable of printing up to 16 ips.

As you can see in this side by side comparison, for most print speeds and darkness settings, the Z107plus provides a darker, more legible image, particularly at the higher speeds of 12, 14, and 16 ips.

Speed 6 ips, 8 ips and 10 ips - Darkness 5

Established in 2013, IMP is headquartered in Atlanta, Georgia with a western distribution center in Los Angeles. IMP is the world's only vertically integrated manufacturer of thermal transfer and hot stamp ribbons – extruding our own PET base film and coating ribbons. This unique capability allows us to offer the best ribbon price/performance value in today's market.
